### **EXCITING ANNOUNCEMENT!**

### **GRAND TRAVERSE AUTO IMPLEMENTS FREEDOM 401(k) PLAN!**

Friday, February 17, Grand Traverse Auto of Traverse City, Michigan chose Freedom One as their new 401(k) plan provider.

Grand Traverse Auto President, Gary Moss, requested that Freedom One conduct an analysis of his current 401(k) plan. Following the review, Gary felt that many business owners would gain value from meeting with Freedom One and learning more about their own plans and the Freedom 401(k). As a result, not only did Grand Traverse choose Freedom One, Gary identified several of his colleagues in the Traverse City business community who he felt would benefit from a similar process.

Freedom One offers an exceptional opportunity to invest in your retirement plan by completing a fiduciary due diligence review. This is a comprehensive reporting process that we implement for prospective clients, which allows them to meet the stringent regulations regarding plan administration and investments that have been imposed by the Department of Labor and ERISA. Our industry has encountered many changes over the past decade, and, as a result, many retirement plans are in desperate need of an update. We would be happy to provide a no-obligation compliance review of your plan and provide you with a fiduciary investment analysis.
